CAREER OBJECTIVE

- To obtain an entry level frontend developer position or internship, I've good knowledge of HTML, CSS, JavaScript and React to create responsive and user-friendly web applications. I've no professional experience but I'm an ambitious person seeking to gain experience and learn. I've completed several projects and courses in web development, and I'm eager to learn from the experience of working at a big company.

EDUCATION

- Bachelor of Computer Engineering and Automatic Control, Tanta university, Jul 2021.
- Online exams platform (OnXams) graduation project, Excellent grade (98%), used HTML, CSS, JavaScript, and Bootstrap in front-end.

SKILLS

- HTML
- CSS
- JavaScript & TypeScript
- Bootstrap
- SASS
- Jest
- React
- Redux
- Git & GitHub
- Data Structures and Algorithms
- Design Patterns
- Problem Solving
